PRODUCT
OVERVIEW

ALL MAKES

Since 1980, A&I Products has become the leading manufacturer and wholesale distributor of aftermarket replacement parts for agricultural, turf, and industrial equipment. Founded with roots as a small machine shop and repair facility, the company started manufacturing new parts to replace those that were commonly needing repair. Throughout the 1980s, 90s, and 2000s, the company quickly garnered a reputation for offering quality parts at a reasonable price. That reputation continues today and has helped to build A&I Products to be the company it is now.

Over the years, A&I Products has grown considerably. Moving from a modified quonset shop to a 7800 square foot facility in 1987 was a significant step. That 7800 square feet now attests for less than 1% of the total space occupied by the company. The catalog at that time consisted of just a few pages. Now A&I Products offers thousands of part numbers sold through authorized dealers and repair shops throughout all regions of the United States and Canada. With a nationwide network of strategically located North American warehouse locations, next day delivery on in-stock items is available on most orders. This ensures getting the product as soon as possible to take care of customer needs.

With a staff of over 300 people and over 825,000 total square feet of warehouse space, A&I Products is here to offer quality parts and products for tractors, combines, backhoes, lawn and garden equipment, skid steer loaders, and much more - from antique to late model.

Since 2010, Sunbelt Outdoor Products and A&I Products have been one. The addition of the Sunbelt portfolio greatly expanded the turf, forestry, and outdoor products lineup available to our customers.

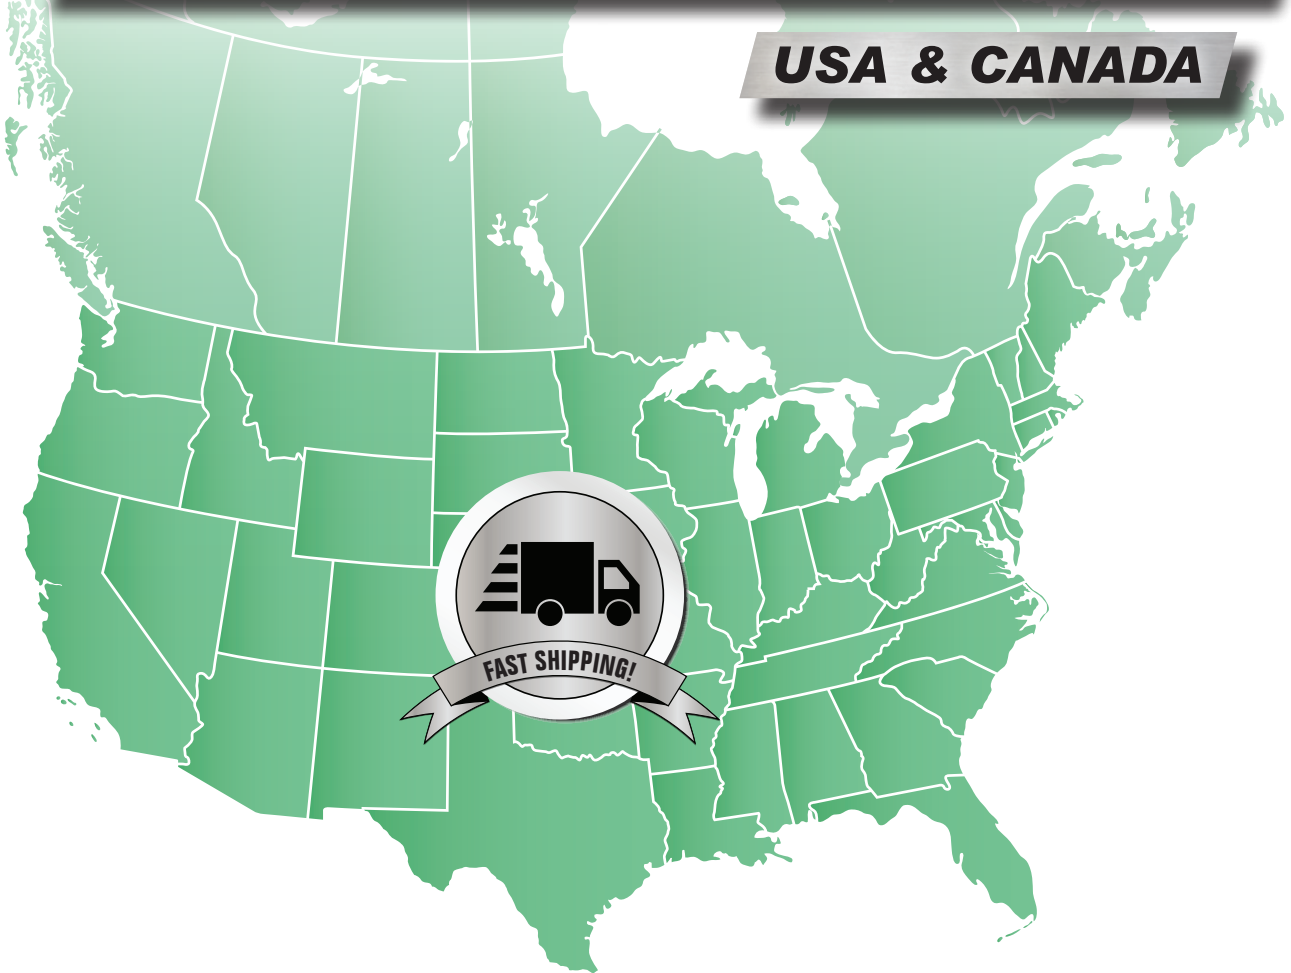

Together, A&I and Sunbelt now offer a tremendous selection of aftermarket replacement tractor, combine, and turf parts... all under one roof. Plus a growing offering of industrial & construction products. Truly your one-stop solution for your part needs.

NATIONWIDE NETWORK OF WAREHOUSES

USA & CANADA

Rock Valley, Iowa stands as the central distribution hub and home to company headquarters and main manufacturing facility. In 2024, a growing need for maximum utilization of space led to the installation of taller racking. Racking previously required easy reach for floor workers, and was limited to only 9 feet in height. Newly installed racking sections now range 20 to 24 feet in height.

The Rock Valley, Iowa facility has now gone from 301,000 cubic feet of usable storage space to 780,000 cubic feet of fully functional storage space. Team members are now equipped with lower-level pickers for daily pick, pack, and ship. Extended pickers are available to reach the upper overflow levels. Additionally, specifically engineered pick paths have been put in place to ensure the most efficient flow of traffic to get your parts in short order.

Stocking the top shelf of the new racking.

TRACTOR PARTS

A&I is proud to provide the industry's leading selection of tractor parts. The portfolio includes replacement parts for John Deere, Case-IH, Ford, New Holland, Massey Ferguson, Allis Chalmers, Kubota, and many more. Related service manuals are also available for most applications.

COMBINE PARTS

After acquiring Loewen Manufacturing in 2007, A&I Products has become world's largest manufacturer of Quality Combine Parts and offers the most complete selection of aftermarket tractor & combine parts in the world.

CabCAM™ CAMERA SYSTEMS

The name you trust, now in high definition. A&I has been updating it's lineup of camera observation systems and now has a full offering of high definition options.

Find cameras and monitors for any application; wired, wireless, digital, analog, and a multitude of GPS adapters to connect to most factory monitors.

SUNBELT OUTDOOR PRODUCTS

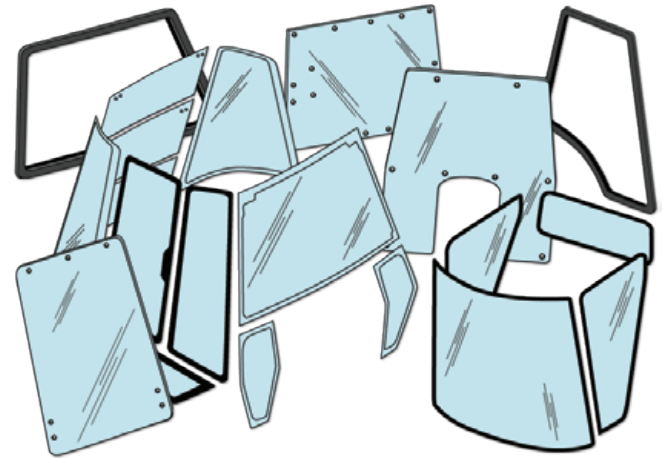

Sunbelt Outdoor Products provides a large selection of turf, lawn & garden, outdoor power equipment, and forestry parts, accessories, and equipment. The Sunbelt lineup includes blades, small engine parts, saw chain, carburetors, filters, pulleys, and much more!

NOCO®

BATTERY CHARGERS & JUMP STARTERS

Jump or charge batteries for small turf equipment, all the way up to the largest pieces of agricultural and industrial equipment and everything in between. A&I products offers a large selection of NOCO professional grade chargers and lithium powered jump packs for any application.

CAB GLASS

A&I's ever-growing selection of cab glass includes pieces for popular tractor and combine makes as well as industrial and construction applications.

ENGINE KITS & PARTS

A&I works with quality suppliers to ensure that all parts included in an A&I engine kit perform and fit as they were meant to. Our engine kits offer: cam ground pistons, ni-resist inserts, spun cast liners and cylinder components designed as a package. In addition, A&I offers a variety of individual engine parts.

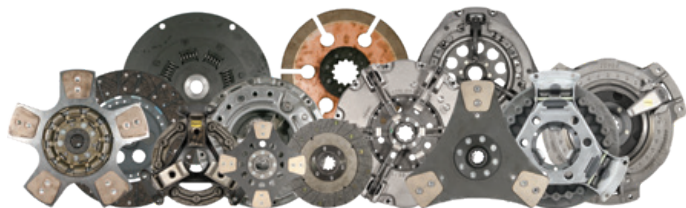

CANOPIES

A&I Products offers canopies to keep you cool in the sun. Designed to fit several models, multiple options are available including colored steel choices and polished aluminum tread plate. Each kit includes all necessary universal mounting brackets and hardware.

AIR CONDITIONING PARTS

A&I has a large selection of air conditioning parts for most tractors and combines plus many components for industrial/construction applications.

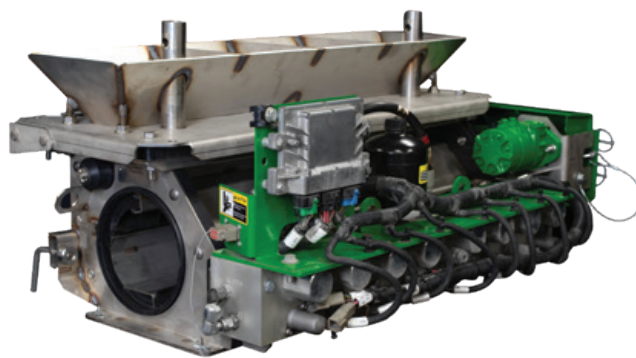

CLUTCHES & PRESSURE PLATES

A&I Products has an extensive offering of many new and remanufactured clutch pressure plates & discs for many brands and models.

DRIVELINES, SHAFTS & YOKES

A&I proudly offers an extensive list of drivelines from suppliers such as: Agmaster, Binacchi, Bondioli and Pavesi, Comer, Neapco, Walterscheid, and Weasler. Our inventory includes several driveline types.

Air Seeder Parts

AIR SEEDER PARTS

A&I offers a growing selection of high quality replacement and upgrade air seeder parts. A&I's air seeder parts are made with corrosion resistant stainless steel and high abrasion, high wear plastics, making them more durable than factory parts. Air Seeder Parts are made in the USA.

ENGINE COOLING PARTS

Radiators, hoses, water pumps and more. A&I has a wide variety of parts available for all your cooling system needs.

ELECTRICAL SYSTEM PARTS

A&I's offers a large variety of starters, alternators, and number of other electrical parts.

FILTERS

Find high quality filters for air, fuel, oil, hydraulics, coolants, and more at A&I Products. A&I offers both economical A&I branded filters, and premium quality filters from Fleetguard.

Thousands of filters are available for all makes and models and types of equipment.

LIGHTING

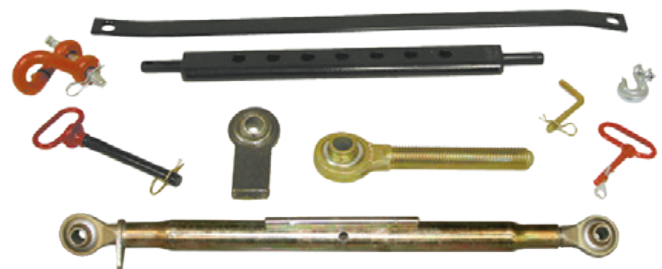

Look for quality lighting solutions including premium LED lights at your local A&I Products dealer or retail outlet. A&I Products has over 200 different types of work lamps, headlamps, warning lamps, sealed beams, and bulbs. You will find flood, trapezoid, and spot options for any application - 6V - 24V.

A&I has been expanding it's LED light offering and offers Universal Lights, Direct Fit Replacement Lights, Bulbs, and Universal and Direct fit light kits. Find a high quality LED option for nearly any application.

HAY TOOL & AG SUPPLY PARTS

A&I has a long list of parts for the hay season. That list includes baler belting, tines, forged guards, knives, blades, and more.

HITCH & LINKAGE PARTS

A&I has a wide variety of parts available for all your hitch and PTO needs including drawbars, hitch pins, and more.

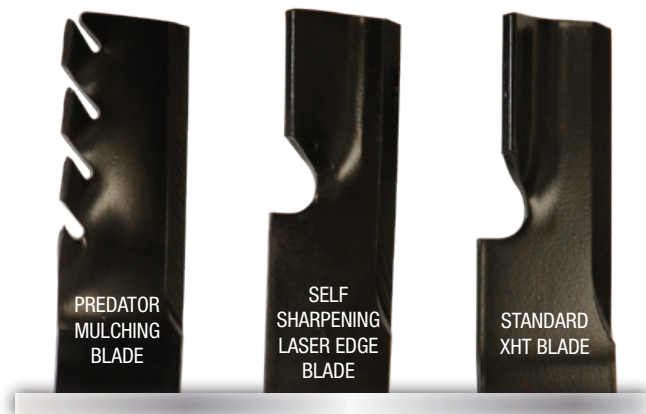

HYDRAULIC FITTINGS & HOSE

A&I offers a variety of 2 & 4 wire bulk hose, along with an extensive line of fittings to get your equipment back into operation. A&I also offers an extensive line of pre-cut hoses.

MUFFLERS & EXHAUST PARTS

Aluminized construction along with seam-welded shell bodies give A&I mufflers longer life. Back pressure levels along with inlet and outlet sizes all meet OEM specifications. A&I carries mufflers for most agricultural equipment.

LASEREDGE®

XHT

Predator

MOWER BLADES

It's a triple threat! A&I Products carries three different styles of professional grade mower blades to suit a variety of needs. Our XHT and Predator blades undergo a patented austempering process, making them the hardest blades on the market. XHT is a standard style blade, while Predator uses the same heat treating process, but with a toothed design for mulching applications.

Our newest addition is the self sharpening LaserEdge, which features an advanced surface-engineered edge that is applied to the underside of the cutting edge of the blade. As the blade is used, the base blade material begins to wear away and exposes a new blade edge, which is harder and more wear resistant than the original cutting edge.

BELTS

A&I's inventory includes more than 12,000 belt numbers for over 85,000 Ag, Turf, Industrial, and Automotive applications.

SEATS & SEAT CUSHIONS

A&I stocks a wide selection of seats for antique or late models of the most popular brands. Check the A&I selection for OE replacement, universal, and suspension seating solutions.

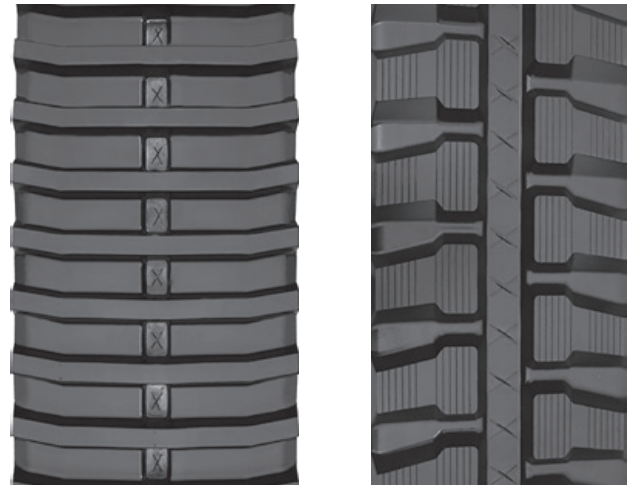

PLANTER PARTS

Ensure a successful planting season with quality replacement planter parts from A&I Products. A&I offers a growing selection of high quality planter parts. Find Opener Discs, Gauge Wheels, Closing Wheels, Scrapers & Bushings, and much more!

RADIOS

JENSEN Heavy Duty stereos, speakers, amplifiers, and sound systems are tough enough for agricultural and construction equipment and powerful enough for powersport vehicles. These radios feature AM/FM, Bluetooth, Weatherband & more.

RUBBER TRACKS

Lay down a new path with A&I Products replacement rubber tracks for compact construction equipment. These high quality tracks feature extended tread wear life & improved traction and use a patented steel cord & metal link technology. Tracks are offered for all brands of equipment and are available in 16 different tread patterns. Find new tracks for compact excavators, compact track loaders, trenchers, directional drills, and crawler carriers.

ATV/UTV

A&I & Sunbelt have been expanding their selection of ATV/UTV parts and now has many parts available for a variety of makes and models. Find parts for John Deere, Polaris, Kawasaki, Honda, Kubota, Can-Am and more. New parts are being added all the time!

StalkStryker™

STALK STRYKER™

Protect your tires and tracks from damage from tough corn stalks. The A&I Products Stalk Stryker™ and Stalk Stryker™ II attach to the corn head and knock down stalks in their place. The Stalk Stryker™ will fit any make while the Stalk Stryker™ II is direct fit on late model John Deere Applications. Both feature abrasion resistant steel, a 10" skid, torsion spring, spring limiter, position adjustment and more!

AND MUCH, MUCH MORE!

Talk to your local A&I Products reseller or find one near you at aiproducts.com.

TWEEL®

Airless Radial Tire

TWEEL™

A&I & Sunbelt carry a selection of Michelin Tweel airless radial tires. These tire-wheel hybrids offer many advantages over traditional pneumatic tires, including no maintenance. Tweels also provide a smoother ride, the strong poly-resin spokes are deformable and will bend as you drive over uneven surfaces or curbs. Tweel tires can last two to three times longer than traditional tires because they won't need air, go flat, or need to be patched. Find drive wheel and caster wheel Tweels for mowers, ATV/UTV tweels, and tweels for skid steers.

ASSORTED BEARINGS

A&I is proud to offer a full lineup of both premium Timken bearings and economically priced import bearings. Whatever your needs, you'll find what you're looking for with A&I.
